Here you'll find how in a simple step-by-step tutorial. Changing the source's resolution on the third-party device you have connected to your TV could be relatively easy as long as you have truthful guidelines. In this post, this is exactly what you will find so let's proceed with changing the resolution! Ensure that your third-party device is connected with an HDMI to your TV. Select the source on your TV and then press the "Display" button. A resolution menu will appear on your screen from which you can configure the resolution of the HDMI source. Let's review this process in-depth. How To Change Source Resolution On Philips TV? It's pretty easy to adjust the resolution of your source as long as it is using an HDMI. We cannot guarantee that other types of connections support resolution configuration since the "Display" button is proven to work only with HDMI. In that regard, we will first cover how to change the resolution of an HDMI and share details among the steps for other types of connections. Step #1 Prepare Your TV The first step is to get your Philips TV ready. In other words, your Philips TV must be up and running to have control of the resolution of the given source you want to configure. Having that said, ensure that your Philips TV is turned on and idling on the home screen. Step #2 Connect The Third-Party Device We assume you already have the third-party device connected, so just check if the HDMI is connected properly. One end on your TV input, the other end on your source device output. In case you're confused, here is how to connect an HDMI third-party device: Examine the HDMI slots on the back of your Philips TV.Choose any HDMI input for your third-party device.Allocate the device and connect it to a power source so it becomes powered.Plug the HDMI cable you will use for connecting the device into the input you've chosen. With these instructions executed, the HDMI device should be connected to your Philips TV. Note: Ensure the HDMI cable is tightly secured into the slot to avoid potential issues. Step #3 Choose The Correct HDMI Source Once you've connected the HDMI cable to your Philips TV, it's time to select the appropriate source so you could change its resolution. Here's how to select HDMI sources on your Philips TV in easy steps: Examine the HDMI input you've plugged your cable in and remember which.Grab your Philips TV remote and click on the Source button.Once the source menu appears, browse the available inputs.Choose the source of your third-party device. With this done, you should be now viewing the broadcast of the HDMI device you've connected to your television. In case the resolution does not quite fix your preferences, let's change it. Important: Before proceeding with the next step, ensure that the third-party device is up and running so you could change the resolution. Step #4 Locate The "Display" Button On your Philips TV remote, there should be a "Display" button that would allow you to alternate the HDMI resolution you're receiving as an output from your device. It should be located on the middle part of the remote and should have a little screen icon on it. When you locate the button, don't press it yet and proceed with the next step so you can first learn what you would need to do. Note: Even if you don't have a remote, later you'll learn how to change source resolution on Philips TV without a remote. Step #5 Change Source Resolution Now when you're ready to press the "Display" button, here's how to change the source resolution of your Philips TV: Grab your remote and press the "Display" button.On the menu that appeared on your screen, select "HDMI Setup".Then, choose "HDMI Video" and press OK.You will see all the resolutions available, choose whoever suits you. You will see a variety of available resolutions, based on the performance of the third-party device plugged in. You will be able to among 480p, 576p, 720p, and so on. Note: Although it is recommended to leave the auto-align on which is also an in-built feature for the sources, choose a resolution that suits you best! How To Change Source Resolution On Philips TV Without Remote? If you don't have a remote for your Philips TV, there is still a way to control the device as well as its features. The process of changing the source resolution remains the same, but you will be using a different way to operate your television than the hardware remote. Here are some of the ways you can control your Philips TV without a remote. Method #1 Using Hardware Buttons We assume that on the back of your Philips TV there are certain hardware buttons. If you don't have a remote, then you should use them to navigate to the source resolution menu and change the settings. Here is the meaning of the buttons on the back of your TV: (a). Channel up/down buttons - These buttons are used to navigate upwards or downwards in the menu. (b). Source button - This button is used to select items in the menu. (c). Volume up/down buttons - On some Philips TVs, these buttons don't do anything but control the sound, but if your Philips TV is old enough to have sideway menus, they are used to navigating through them. Knowing this, go to Menu > Settings > Display > HDMI Setup > HDMI Video and select the preferred resolution for your TV source. Method #2 Download Philips TV Remote App If using hardware buttons doesn't work for you, there is an alternative way to manage the settings of your TV without using a hardware remote. Philips has designed a user-friendly mobile remote interface that works for their TVs. Here's how to set up the Philips TV remote app on your phone: In the App Store/Google Play of your smartphone, search for "Philips TV remote".Download the application released by Philips.Open the application and ensure your TV is running.Click "Confirm" on the prompt on your phone and wait. Note: Now a digital remote will appear on your smartphone, where you will have the same buttons as one hardware remote would have. Follow this path to change the resolution: Menu > Settings > Display > HDMI Setup > HDMI Video. Read Next: How To Change Screen Size On Philips TV Without Remote? Not having a remote can be tough, but nowadays there are plenty of alternatives you can choose from to control your television. Photo Courtesy: Netflix/FX/Getty Images Whether a show is a total guilty pleasure or a highbrow icon of Prestige TV, a feel-good sitcom or a high-concept drama, television has the ability not only to represent and mirror society but teach us some valuable lessons about acceptance and openness. That's why we've decided to take a look back at TV history and highlight a few titles that made TV a more representative, progressive and diverse place. I Love Lucy Lucille Ball in "I Love Lucy" in 1952. Photo Courtesy: CBS Back in the 1950s, Lucille Ball's sitcom I Love Lucy, in which her character was married to Ball's real-life husband Desi Arnaz, broke a big TV taboo. When the actress became pregnant the couple thought the show, which had aired for one season on CBS, would be canceled or put on hiatus until after she gave birth. Pregnancy wasn't a thing that happened on TV at the time. And writing around an actress's pregnancy hasn't always been as easy as getting Scandal's Kerry Washington a few fabulous coats. In the end, Ball's pregnancy was written into the show, an approach that's been used plenty of times in scripted TV since then. The writers would have to avoid the word "pregnant" though, considered too vulgar to air. The episode in which Lucy's pregnancy was announced aired in 1952. It was titled "Lucy Is Enceinte" because apparently it's OK to refer to the "p" word in French. The characters used verbal workarounds like "we're having a baby" or "blessed event" to imply Lucy's state. Nichelle Nichols and William Shatner in "Star Trek." Original airdate of the episode: November 22, 1968. Photo Courtesy: CBS via Getty Images Star Trek: The Original Series not only garnered a devoted following that's since span several sequel series, spin-offs and movie franchises over the decades, it was also a rare example of diversity on screen. Nichelle Nichols played Uhura, a Starfleet Lieutenant and communications officer, making the show one of the first to feature a Black woman not portraying a servant. George Takei played Lieutenant Sulu, the U.S.S. Enterprise's helmsman. Having a Japanese American actor in such a visible role just two decades after World War II, a time defined by America's anti-Asian policies and racism, also highlighted the show's commitment to representation. Then there's the kiss. Uhura and Captain Kirk (William Shatner) kissed in a 1968 episode while under the influence of aliens. You can argue whether that was the first interracial kiss on screen or not, but it sure proved the show's dedication to the depiction of a plural and diverse society. And it confirmed Kirk's famous words: "Where I come from, size, shape or color makes no difference." The Mary Tyler Moore Show Mary Tyler Moore in "The Mary Tyler Moore Show" circa 1975. Photo Courtesy: Getty Images This seven-season sitcom that aired between 1970 and 1977 broke a few molds. It starred Mary Tyler Moore as Mary Richards, a single woman in her 30s focused on her career in a TV station. The show was created by James L. Brooks and Allan Burns but boasted a writers' room where there was also a significant number of women, especially for the period. Treva Silverman was one of the first women hired as a writer for the show, and, importantly, she shared her own experiences to inform the characters' lives. Other than in the writers' room, the show was groundbreaking because it focused on the life of an independent career-woman who didn't care about getting married. And although certain themes weren't treated in the same, direct way we've grown accustomed to in the past few decades, the show made suggestions about Mary having an active sexual life and taking the pill. It also paved the way for other career-women-centered shows like Murphy Brown, Ally McBeal, 30 Rock and even Sex and the City. Ellen Ellen DeGeneres and Lisa Darr in "Ellen." Episode air date: July 22, 1998. Photo Courtesy: Walt Disney Television via Getty Images The sitcom Ellen, starring Ellen DeGeneres as Ellen Morgan, was on its fourth season when it aired "The Puppy Episode" in 1997. In it Morgan was attracted to a character played by Laura Dern and she came out as gay to her friends. The "Yep, I'm gay" moment was big for American TV because up until then gay characters had been relegated to secondary, mostly one-note roles. DeGeneres' character announcing her sexual orientation coincided with the actress herself also formally coming out with a Time magazine cover and interview. DeGeneres' figure has been under scrutiny in recent months regarding allegations of a toxic work environment in her talk show The Ellen DeGeneres Show, but in the 1990s her sitcom cleared the way for further LGBTQ representation on TV. The sitcom Will & Grace started airing in 1998 with Eric McCormack playing gay lawyer Will and best friend to Grace (Debra Messing). Then there was Queer as Folk on Showtime in 2000. It was an adaptation of a British show of the same name and depicted a group of gay friends — and their sex lives — in a nuanced way. The Fresh Prince of Bel-Air Karyn Parsons, James Avery, Daphne Reid, Joseph Marcell, Tatyana Ali, Will Smith and Alfonso Ribeiro in "Fresh Prince of Bel-Air." Photo Courtesy: NBCUniversal via Getty Images The Banks — and their Philadelphia-born nephew Will Smith — weren't the first Black family on a successful TV sitcom with international success. The Cosby Show reigned first with eight seasons, running from 1984 to 1992, before Bill Cosby's sex crimes came to light. The Fresh Prince of Bel-Air started airing in 1990 and was loosely based on Smith's life. The six-season sitcom jump-started Smith's career. But other than making the protagonist a movie star, the show also highlighted the life of a wealthy, stable and college-educated Black family, widening the scope of how Black characters were represented on TV. And even though it was a sitcom, the show also tackled serious topics like Police profiling — Will and Carlton (Alfonso Ribeiro) get pulled over by the Police while driving a Mercedes Benz — drug use, gun violence, date rape, HIV, racism and other issues. Ugly Betty Vanessa Williams, Mark Indelicato, Tony Plana, Ana Ortiz, America Ferrera, Becki Newton, Eric Mabiuis, Judith Light and Michael Urie in "Ugly Betty." Photo Courtesy: Walt Disney Television via Getty Images The dramedy Ugly Betty, which ran on ABC for four seasons between 2006 and 2010, was an adaptation of the Colombian telenovela Yo soy Betty, la fea. The show put a Mexican American family front and center in a primetime show. It also starred America Ferrera, who played an unstylish but hard-working woman who ends up working at a fashion magazine. Tony Plana played Betty's dad and he often mixed Spanish and English dialogue in the show, the way a lot of Hispanic families do. And Ana Ortiz played Hilda, Betty's older sister. The show garnered praise for its representation of Latinas on TV. But it also addressed topics like body image and Hilda's teen-age son coming out as gay. Besides winning three Emmys, Ugly Betty won two Gay and Lesbian Alliance Against Defamation (GLAAD) Media Awards. Ortiz is once again involved in a history-making TV show: Hulu's Love, Victor. The show centers on Victor — a half-Colombian-American, half-Puerto Rican gay teenager — and his struggles to tell his religious family he's gay. Ortiz plays Victor's mom. Orange Is the New Black Natasha Lyonne, Yael Stone, Danielle Brooks, Dascha Polanco, Taylor Schilling, Uzo Aduba, Adrienne C. Moore, Kate Mulgrew, Jessica Pimentel and Selenis Leyva. Photo Courtesy: Netflix What started as the adaptation of Piper Kerman's memoir about the months she spent in prison for a decade-old drug conviction, ended up becoming much more than that. As Jenji Kohan's (Weeds) show progressed, it stopped focusing on Piper (Taylor Schilling) and opened the scope to an incredibly diverse ensemble cast of women. The show, which aired for seven seasons on Netflix from 2013 to 2019, became a refreshing blend of tales from all the women who made it. In later seasons, the series also commented on the for-profit prison system and immigration. But its inclusion of women of all ages, races and backgrounds is what made it stand out in the first place. Plus, the series has helped cement the careers of actresses Uzo Aduba (Mrs. America, In Treatment), Natasha Lyonne (Russian Doll), Samira Wiley (The Handmaid's Tale) and Laverne Cox (Promising Young Woman). Pose Indya Moore, Mj Rodriguez and Hallie Sahar. Photo Courtesy: FX FX's Pose not only meant a front-row seat to ballroom culture. The show, created by Ryan Murphy, Brad Falchuk and Steven Canals, is set in the late '80s and early '90s and depicts the lives of a group of Black and Latina transgender women and their gay friends. They're in the midst of the AIDS epidemic and try to carve a place for themselves in a society that turns a blind eye or simply rejects them, all while they reshape the definition of family. The show made headlines when it first debuted in 2018 for having the largest transgender cast of any scripted series. Not only that, the show enlisted writer and activist Janet Mock, and, soon after, she became the first transgender woman of color to write and direct an episode of television. Mock has written and directed several Pose's episodes since. Pose's best-known face is perhaps that of Billy Porter. The Emmy-winning actor has become a red carpet fixture thanks to the show's success. He's taken the mantle from his character Pray Tell and helped redefine what masculinity means. Rutherford Falls Jana Schmieding and Ed Helms. Photo Courtesy: Peacock This Peacock sitcom that aired its first season in April 2021 is co-created and executive produced by Ed Helms, Michael Schur (Parks and Recreation) and Sierra Teller Ornelas (Superstore). Teller Ornelas is Navajo and one of the five Native writers on this show. In fact, Rutherford Falls has one of the largest Indigenous writers' rooms in history, according to Peacock. Native American representation is also a big part of Rutherford Falls in front of the cameras with actors Jana Schmieding and Michael Greyesey playing members of the fictional Minishonka Nation. Rutherford Falls has been praised for its depiction of Native American characters and cultures and inclusive representation. The show also stars Helms as Nathan Rutherford and Jesse Leigh as Bobbie Yang, Nathan's non-binary executive assistant. Rutherford Falls has only aired one season so far but it'll be interesting to see if it opens new opportunities for Native American narratives told by Indigenous creators and actors.
